PROFILE

Seeking a Full-Stack Software Engineer position to leverage my strong foundation in programming languages and problem-solving skills to contribute to the development and success of complex software projects. Eager to learn and collaborate within a team environment to drive innovation for a reputable organization.

PROJECT WORK

MERN Stack Social Media Web Application (Frontend Lead)

March 2024-Aprill 2024

- Designed and developed a responsive and user-friendly interface using React, HTML5, CSS3, and Bootstrap.
- Focused on creating a seamless user experience across desktop, mobile, and tablet devices.
- Implemented interaction design principles to ensure intuitive navigation and user workflows for creating profiles, uploading posts, following users, and interacting with content.
- Collaborated closely with backend developers to ensure a cohesive user experience across all functionalities.
- GitHub Repo:https://github.com/JayrajGujariya/Unify-SociamMediaApp

Key Achievements:

- Designed a visually appealing and intuitive UI with the goal of increasing user engagement.
- Achieved a smooth user experience across various devices.

Weather Forecast Website

March 2024

- Developed a user-friendly website using HTML, CSS, and JavaScript to display weather forecasts based on user-specified locations.
- In this weather website i used OpenWeatger API to fetch realtime weather
